EDUCATION

University of Toronto Toronto, ON	Ph.D. in Electrical & Computer Engineering Cumulative GPA: 4.0	Sep 2018 - Aug 2022
Texas A&M University College Station, TX	Master of Science in Electrical Engineering Major GPA: 4.0 Cumulative GPA: 4.0	May 2016
Hanyang University Seoul, Korea	B.S. in Electronic Engineering, Cum Laude Overall GPA: 3.56 / 4.0	Feb 2014

WORK EXPERIENCE

University of Toronto, Biometrics Security Lab - Research Assistant	Sep 2018 - Present
<ul style="list-style-type: none">• Develop User Verification System using Heart Signal with CNN, RNN, GAN and VAE<ul style="list-style-type: none">- Apply various signal processing techniques in both time and frequency domain to build input dataset- Find time-stable and unique features from heart signals to establish the user verification system- Compare conventional machine learning model with deep learning model to find the best suitable model• Physiological Analysis with Wearable Device - Huawei Project<ul style="list-style-type: none">- Use physiological data from wearable device (ex. smart watch) to offer diverse applications (ex. healthcare)- Analyze the physiological signals to find the useful features and design the suitable classifiers	
Amazon Science, Alexa AI - Applied Scientist Intern	Sep 2021 - Dec 2021
<ul style="list-style-type: none">• Investigate the Data Augmentation for Entity Retrieval<ul style="list-style-type: none">- Consider word-level, character-level and back-translation approaches to enlarge the database- Develop the GAN approaches to suggest the proper and diverse synthetic data- Combine both conventional augmentation and GAN to achieve the best performance	
Hyundai Mobis, DAS Control Engineering team - Research Engineer	Jul 2016 - Feb 2018
<ul style="list-style-type: none">• Design Driver Attention Warning algorithm in Multi-Function Camera<ul style="list-style-type: none">- Designed and optimized the flow of algorithm for improving the quality of function- Drove a test car in problematic conditions to resolve the issues of a new vehicles• Test Recognition Rate of Multi-Function Camera in Moving Vehicle<ul style="list-style-type: none">- Assessed the recognition rate of camera in diverse situations- Evaluated the rate in downtown, local road, highway and proving ground	
Texas A&M University, Laboratory for Optical Diagnosis and Imaging - Research Assistant	Sep 2014 - May 2016
<ul style="list-style-type: none">• Improve Image Quality by using Image Processing Techniques<ul style="list-style-type: none">- Implemented a deconvolution method to get better image quality- Reduced noise within signal using various filters• Analyze Fluorescence-Lifetime Imaging Microscopy data by implementing Machine Learning Methods<ul style="list-style-type: none">- Experimented feature selection methods to find out useful features in huge datasets- Optimized diverse classifiers (mainly, SVM with Gaussian kernel) to obtain lower error rate	

PUBLICATIONS

2022 IEEE International Conference on Acoustics, Speech and Signal Processing (ICASSP)	
<ul style="list-style-type: none">• Hierarchical Deep Learning Model with Inertial and Physiological Sensors Fusion for Wearable-based Human Activity Recognition	May 2022

DY Hwang, PC Ng, Y Yu, Y Wang, P Spachos, D Hatzinakos, KN. Plataniotis

Journal of Signal Processing Systems (Invited paper)

- A New Score Level Fusion Approach for Stable User Verification System Using the PPG Signal Mar 2021

DY Hwang, B Taha, D Hatzinakos

IEEE Transactions on Information, Forensics and Security

- PBGAN: Learning PPG Representations from GAN for Time-Stable and Unique Verification System Oct 2021

DY Hwang, B Taha, D Hatzinakos

2021 IEEE International Conference on Acoustics, Speech and Signal Processing (ICASSP)

- Variation-Stable Fusion for PPG-based Biometric System Jun 2021

DY Hwang, B Taha, D Hatzinakos

IEEE Transactions on Information, Forensics and Security

- Evaluation of the Time Stability and Uniqueness in PPG based Biometric System Jul 2020

DY Hwang, B Taha, DS Lee, D Hatzinakos

2019 IEEE Canadian Conference on Electrical & Computer Engineering

- PPG-based Personalized Verification System: PPSNet May 2019

DY Hwang, D Hatzinakos

International Society for Optics and Photonics

- In vivo metabolic imaging of early stage oral cancer and dysplasia based on autofluorescence lifetime endoscopy Mar 2018

E Duran, DY Hwang, S Cheng, R Cuenca, B Malik, KC Maitland, J Wright, YSL Cheng, ...

Latin America Optics and Photonics Conference

- Early Detection of Oral Epithelial Cancer with Endogenous Fluorescence Lifetime Endoscopy Aug 2016

S Cheng, DY Hwang, R Cuenca, B Malik, KC Maitland, J Wright, YSL Cheng, B Ahmed, JA Jo

International Society for Optics and Photonics

- In vivo detection of oral epithelial cancer using endogenous fluorescence lifetime imaging : a pilot human study May 2016

JA Jo, DY Hwang, J Palma, S Cheng, R Cuenca, B Malik, J Jabbour, L Cheng, J Wright, ...

Cancer Imaging and Therapy

- In Vivo Detection of Oral Epithelial Pre-Cancer and Cancer by Endogenous Fluorescence Lifetime Imaging (FLIM) Endoscopy Apr 2016

S Cheng, DY Hwang, R Cuenca, B Malik, KC Maitland, J Wright, YSL Cheng, JA Jo

HONORS

SGS Conference Grant - Outstanding student who do conference presentation May 2019

Hanyang International Scholarship - Outstanding student who is studying abroad Sep 2014 - May 2016

Full National Science & Engineering Scholarship - Outstanding engineering student: 5 times Sep 2009 - Sep 2013

Full Grade Scholarship - Top student in major (Rank in 1/215) Mar 2009

PROFESSIONAL SERVICE

IEEE Transactions on Information, Forensics and Security - Reviewer Jun 2021 - Present

IEEE Journal of Biomedical and Health Informatics - Reviewer Jul 2021 - Present

SKILLS

Technical Skills - C, C++, Python (including TensorFlow, Keras), MATLAB (including Stateflow), MCU (ATmega128), AVR Studio, CANoe

Technical Areas - Signal Processing, Computer Vision, Machine Learning, Deep Learning, Algorithm, Data Structure

Foreign Language - Native in Korean, Fluent in English

REFERRERS

During Ph.D. degree - Under the supervision of **Prof. Dimitrios Hatzinakos**

dimitris@comm.utoronto.ca

During Master degree - Under the supervision of **Prof. Javier A. Jo**

javierjo@ou.edu
